

DESCRIPTION

This super-concentrated cleaner can be diluted with water into a powerful concentrate that can be further diluted to provide maximum performance at optimum economy. Its potent formula handles most cleaning chores quickly and easily, and is ideal for damp mopping floors - it picks up dirt and grime without harming natural wax or synthetic polymer floor finishes. Its mild action is gentle to all washable surfaces yet strong enough to remove tough dirt and other soils. It dries instantly and never leaves a dulling film.
