Concrete Cleaner & Etch

Product # 140

Cleans, etches and bleaches in one step

This concrete cleaner and etcher is specially formulated for use on concrete floors, brick, masonry block and flagstone. It uses the power of muriatic acid to clean, etch and whiten concrete while it also neutralizes the surface alkalinity of the concrete. It also prepares concrete surfaces for painting and sealing by aiding the penetration ability, bonding strength and durability of the surface coating.

Use in:

- Floors
- Walls
- Driveways
- Warehouses
- Masonry
- Loading Docks
- Hangars
- Grouting

Features and Benefits

- Prepares concrete floors, walls and blocks for painting and sealing.
- Powerful muriatic acid cleans, etches, opens pores and whitens concrete.
- Neutralizes surface alkalinity to extend the life of paints and seals.

Properties

Appearance.......	Green liquid
Fragrance..........	Acid
Concentrate.......	Yes
pH......................	1.0
VOC content......	None

Directions Complete directions on product label

Etch the surface of the concrete using a 1 to 5 dilution with water. Swab the surface with old broom or brush. Wait for 10 minutes or until the fizzing stops. Rinse completely with water before sealing or painting.

Active Ingredients

|	CAS Number
Water	7732-18-5
Hydrochloric acid	7647-01-0
Poly (oxyethylene) nonylphenol	9016-45-9
Ethoxylated amine rosin	61790-47-4
Green dye	61791-17-1

Safety

Danger: Poison. May be fatal if swallowed. Causes severe burns. Vapor harmful. Keep out of the reach of children.
