

DESCRIPTION

These wipes combine powerful cleaning agents with waste-digesting bacterial-enzymes to produce a product that literally wipes away heavy soils and stains from carpet and upholstery.

Within seconds after a wipe is applied to a stain, the cleaning agents and surfactants are already working to separate the soil from the fabric fibers. Once the stain is separated from the fibers, the bacteria go to work to digest any organic matter that may be present, as well as any odors that may accompany the stain.

These wipes remove some of the toughest stains, including: wine, coffee, juice, oil, ketchup, blood, ink, pet accidents, vomit and more.

CAUTION

May irritate eyes and skin. Avoid contact with eyes and skin.

FIRST AID:

IF IN EYES: Flush with plenty of cool water for at least 15 minutes. If irritation persists, obtain medical assistance.

IF ON SKIN: Wash with soap and water.

KEEP OUT OF REACH OF CHILDREN

DISPOSAL: Offer empty container for recycling. If recycling is not available, discard container in trash.

Spot Remover for Carpet and Upholstery

• SPECIALLY SELECTED ENZYME-PRODUCING BACTERIA REMOVE STAINS AND NEUTRALIZES ODORS

KEEP OUT OF REACH OF CHILDREN
CAUTION

May irritate eyes and skin.

NET CONTENTS: 40

10" x 12" (25.40 cm x 30.48 cm) Premoistened Wipes

Manufactured By: Total Solutions™
PO Box 240014 • Milwaukee, WI 53224

DIRECTIONS

Spot Removing: Blot stained spot with a wipe until the stain begins to disappear. Set-in stains may require additional blotting or rubbing.

Odor Elimination: Once stain is removed, place a fresh wipe over the affected area and moisten with water. Leave for 24 hours so the natural bacteria in the wipe can destroy the odor and eliminate unseen organic matter.

DIRECTIONS FOR DISPENSING

1. Remove lid by lifting upward. Remove foil seal.
2. Pull towel from center of the roll and thread through "X" on the underside of the lid.
3. Close lid. Pull towel at 90° angle.
4. Snap hinged cap back into place to ensure towels stay moist.
