

DIRECTIONS

All ice melting compounds are impractical to use when snow accumulates to amounts of more than two inches. Before using GREEN FIRE ICE MELTER be sure to shovel or plow away excess snow, and apply GREEN FIRE ICE MELTER only to the remaining, hard packed snow. GREEN FIRE ICE MELTER should be spread at the rate of 1/4 pound per square yard. DO NOT overspread GREEN FIRE ICE MELTER. Be sure that it is spread evenly and that there are no piles.

GREEN FIRE ICE MELTER does not harm good quality concrete. It may, however, cause some surface scaling of poor quality concrete. GREEN FIRE ICE MELTER should not be used on concrete less than one year old and should not be used on concrete with exposed aggregate, precast steps. GREEN FIRE ICE MELTER should not be used on chipped or cracked concrete, or brick steps or walks.

Water produced by ice and snow that has melted can enter the pores of concrete, or through chips and cracks in the concrete. The alternating freezing and thawing of this water can then cause damage to the concrete. To prevent this from occurring, REMOVE SLUSH AND WATER FROM CONCRETE.

GREEN FIRE ICE MELT

WARNING

Harmful if swallowed. See side panel for additional precautions and first aid instructions.
KEEP OUT OF REACH OF CHILDREN

NET WEIGHT: 50 LBS. (22.7 KG) 100 LBS. (45.42 KG)

DESCRIPTION

GREEN FIRE ICE MELTER's amazing qualities are sure to make an impression on you -- as well as on your sidewalks and parking lots too. GREEN FIRE ICE MELTER can dissolve snow and ice in minutes even when temperatures dip below 0°F. Distribute evenly on concrete or asphalt surfaces using a spreader. Or, simply use you hand and toss the pellets about the ground. GREEN FIRE ICE MELTER is non-caustic to skin so it won't harm or irritate bare hands. Unlike other deicing products, it won't leave behind a residue that can be tracked onto carpets and floors. So as to not over-apply and waste pellets, GREEN FIRE ICE MELTER is in a fluorescent green color making it easier to see against glaring ice and snow. Will not chip concrete or asphalt surfaces and won't harm plant-life. So when you need to remove ice quickly, efficiently and safely, get GREEN FIRE ICE MELTER.

WARNING

Harmful if swallowed.

FIRST AID:

IF SWALLOWED: Contact a physician or poison control center immediately. DO NOT induce vomiting.

IF IN EYES: Flush eyes with water for at least 15 minutes. If irritation is persistent, contact a physician

IF ON SKIN: Wash skin with soap and water. Remove all contaminated clothing and launder separately before reuse. If irritation is persistent, contact a physician.

See M.S.D.S. for complete safety information.
