

This powerful solvent cleaner and degreaser has a high dielectric strength that makes it ideal for use around energized electrical equipment. Its non-flammable nature makes it perfect for use in areas where reduced fire hazard is important.

Dielectric Strength (ASTM-D-877-80): 30 KV

To clean electric motors in place, spray directly into the motor to flush out grease, carbon, dust, etc. Run motor until dry, then re-lubricate.

Motor may also be submerged in clean solvent and turned on for 3 to 5 minutes. Turn off current, remove motor from tank and allow to air dry thoroughly. Re-lubricate before use. Use only clean solvent to prevent damage from grit.

Electrical switches, fuse panels, contact points, printed circuits may be safely cleaned with this product. For extra safety, always disconnect power source before handling electrical devices.

This clean, powerful solvent degreases a wide variety of surfaces. Safe for use on all types of metal including aluminum, steel, concrete, fiberglass, painted surfaces and many plastics. Test before using on plastics.

Flushes grease and brake fluid from brake shoes and calipers. Strips grime from machinery and engines. Removes ink, lint and grease from the rollers and printing presses, also adding machines and typewriters. Cleans and de-waxes packaging machinery and vending machines – anywhere fast, clean degreasing is required.

DO NOT HEAT THIS PRODUCT – USE COLD.
