

DESCRIPTION

Enviro-Caustic™ Smokehouse Cleaner is a true breakthrough cleaner. With a pH of 13 and caustic formulation, it offers the performance of traditional caustic oven, grill, and smokehouse cleaners, but is non-corrosive to skin, odorless, biodegradable, and ships DOT non-hazardous.

The thickened formula sticks to vertical surfaces, to allow for longer dwell time and better cleaning. Highly effective on grease, fats, oils, carbon, dirt, and baked-on deposits on food prep and cooking surfaces such as ovens, grills, deep fryers, smoke houses, and meat curers.

DIRECTIONS

Use as-is or dilute up to 10 parts hot water. Adjust the dilution rate according to the equipment manufacturer's instructions. Apply directly onto surface. Allow to penetrate and soften deposits. Scrape away loosened deposits. Rinse with clean, hot water.

Please Recycle.

Canister made from 25% post-consumer recycled plastic.

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl.oz.)

Manufactured By: Total Solutions®
PO Box 240014 • Milwaukee, WI 53224 • 800.743.6417

CAUTION

MAY BE HARMFUL IF SWALLOWED. MAY CAUSE EYE AND SKIN IRRITATION.

Do not take internally. Wash thoroughly after handling.

HANDLING AND STORAGE: Keep container tightly closed when not in use. Store in a cool area away from acids. Do not mix with any other chemical. Rinse container before discarding.

FIRST AID

IF IN EYES: Flush eyes and under eyelids with plenty of cool water for at least 15 minutes. Call a physician immediately and continue flushing until medical attention is obtained.

IF ON SKIN: Flush with plenty of cool water for at least 15 minutes while removing contaminated clothing. Obtain medical attention. Launder clothing separately before re-use.

IF SWALLOWED: Contact physician or poison control center immediately. Rinse mouth with water. Give person 1 to 2 glasses of water. Do not induce vomiting unless told to do so by a physician or poison control center. Never give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air. If breathing has stopped, administer artificial respiration. If breathing is difficult, give oxygen. Obtain medical attention.

See MSDS for complete safety information.
