

# Rinse Aid

Product # 473

*Eliminates water spotting on dishes*

This concentrated additive eliminates spotting and soap scum accumulations on dishes in all types of dishwashing operations. Designed for use in automatic rinse injectors on commercial dishwashing equipment, its special blend of wetting and rinsing agents also can be used in hand washing and added into rinse water sinks. It allows water to quickly run off dish and glass surfaces, even in hard water.

## Use in:

- Automatic dishwashers
- Hand dishwashing rinse water
- Hard water
- Soft water

## Features and Benefits

- An additive used in dish washing rinse water.
- Superior performance in hard water.
