# BIO-FLOW BLOCK

This product is a solid, bacterial laden, block for use in degrading organic waste in higher flow systems such as lift stations, wet wells, etc.

The safe, naturally occurring bacteria are present in high numbers to handle difficult organic problems, the unique block will gradually dissolve over a 45-90 day period which allows for continuous treatment and degradation of waste. The naturally occurring bacteria contained in the block will reduce odor, sludge, fates oils and grease build up. This product reduces hydrogen sulfide and sludge buildup and breaks down odors, fecal and grease compounds.

**Directions:**

New Blocks will dissolve gradually over a 45-90 day period (depending upon flow rate) allowing for continuous treatment of waste.

Easy to use: Remove Block from box. Suspend Block from a rope into treatment area. Change out the spent block every 45-90 days.

**CAUTION**

May irritate eyes and skin.

**FIRST AID**

**IF SWALLOWED:** Contact a physician or poison control center immediately. DO NOT induce vomiting.

**IF IN EYES:** Flush eyes with water for at least 15 minutes. If irritation is persistent, contact a physician.

**IF ON SKIN:** Wash skin with soap and water. Remove all contaminated clothing and launder separately before reuse. If irritation is persistent, contact a physician.

See M.S.D.S. for complete safety information.

**KEEP OUT OF REACH OF CHILDREN**

Handling & Storage: Avoid excess heat. Do not store in unmarked containers.

Ingredients/CAS Number: Bacillus Genus/No CAS Number.
