

## DESCRIPTION

This product contains a special blend of bacteria strands, both aerobic and facultative, chosen for their ability to digest and liquefy organic waste quickly, efficiently and without odors.

The natural bacterial/enzymes break down proteins, starches, carbohydrates, and animal and vegetable deposits in drains and grease traps. Ideal for use in sinks, drains, urinals, toilets, grease traps, septic tanks, lift stations and sewer laterals.

This product is the safe and natural solution to keeping pipes clear of organic waste.

## CAUTION

May be harmful if swallowed. May cause eye and skin irritation. Do not take internally. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

### FIRST AID:

**IF IN EYES:** Flush eyes with water for at least 15 minutes. If irritation is persistent, contact a physician.

**IF ON SKIN:** Wash skin with soap and water. Remove all contaminated clothing and launder separately before reuse. If irritation is persistent, contact a physician.

**IF SWALLOWED:** DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Contact a physician or poison control center immediately.

**IF INHALED:** Move person to fresh air. If irritation is persistent, contact a physician.

See M.S.D.S. for complete safety information.

### KEEP OUT OF REACH OF CHILDREN

**HANDLING AND STORAGE:** Keep container tightly closed when not in use. Do not mix with other chemicals. Do not store in unmarked containers. Rinse thoroughly with water before recycling container.

# TOTAL SOLUTIONS™

BACTERIAL/ENZYME DIGESTANTS

## LIQUIDASE 250

All-Purpose Digestant

- ALL-NATURAL - SAFE TO USE
- BREAKS DOWN PROTEINS, STARCHES, CARBOHYDRATES, ANIMAL AND VEGETABLE DEPOSITS
- SALMONELLA FREE

### KEEP OUT OF REACH OF CHILDREN

## CAUTION

May irritate eyes and skin. See side panel for additional precautionary instructions and first aid instructions.

NET CONTENTS:

□ 5 □ 6 □ 20 □ 30 □ 35 □ 55 Gallons

Manufactured By: Total Solutions™  
PO Box 240014 • Milwaukee, WI 53224

## DIRECTIONS

### SHAKE WELL BEFORE USING.

### SINKS, FLOOR DRAINS, URINALS AND TOILETS:

Use 2 ounces of digestant once per week in every drain and allow to work overnight. For drains that receive large amounts of organic matter (kitchen and floor drains, laundry sinks and drains), increase the treatment to 4-6 ounces, as often as every other day. For best results, treat at the end of day or other period of lowest flow. To prevent loosened debris from causing obstructions, always begin the treatment program by treating the lower floors first. Retreat after several hours. Do not mix with bleach, harsh drain openers or disinfectants.

**GREASE TRAPS:** For average size grease traps (about 20 cubic feet capacity), add 1 quart directly to trap or through drain. Then use 1 pint per week for maintenance.

**SEPTIC TANKS:** Use 2-4 quarts of this digestant for the initial treatment of 500 gallon tank. The weekly maintenance dose should be 1 pint for each 5 people using the system. Treat drain fields and leach beds by pouring directly into the distribution boxes or vents.

**SEWER LATERALS:** Laterals are treated during periods of low flow by adding through manholes. Dosage per unit length of lateral will vary with the diameter of the line:

### LATERAL DIAMETER OUNCES PER 500 FEET

8 INCHES	32 OUNCES
12 INCHES	48 OUNCES
16 INCHES	64 OUNCES
20 INCHES	96 OUNCES
24 INCHES	128 OUNCES

**This Product Contains/CAS Number:** Water/7732-18-6; Propylene Glycol/57-55-6; Bacillus Culture/68038-68-6; Poly (oxyethylene) nonylphenol/9016-45-9; Dye/Proprietary.
