

**READ AND FOLLOW ALL DIRECTIONS
AND CAUTIONS CAREFULLY BEFORE
USING THIS PRODUCT!**

This drain opener contains powerful caustic granules activated with aluminum needles. When added to water in a drain or sewer, it releases large amounts of heat and turbulence to liquefy, dissolve and loosen animal and vegetable fats and oils, hair, paper, organic matter and other materials that clog drains and sewer lines.

DIRECTIONS

MUNICIPAL: Pour or shovel 25 pounds into strategic manholes. If sewer system is dry, pour water down manhole after the drain opener has been added.

INDUSTRIAL: Use 2 to 3 pounds in normal drains. In food plants, such as packing houses, canneries, etc., where accumulations of grease or organic matter are high, dosages of 5 to 8 pounds are recommended.

WARNING: Use of this drain opener generates considerable heat which may cause eruption of hazardous liquid contents. NEVER use a plunger with this product. Add slowly to drain or manhole. Never look into drain after treating.

Place a bucket or other deep container over drain opening after treatment. Do not use in combination with or directly after treatment with acid type drain openers, as it will react violently. Do not enter treated sewers until they have been thoroughly flushed out with water.

HIGH HEAT

UNCLOGS DRAINS AND KEEPS
THEM FREE-FLOWING

DISSOLVES FATS, GREASES,
SOAP, HAIR AND PROTEINS

HARMLESS TO DRAINS,
PIPES AND SEPTIC SYSTEMS

CONTAINS NO SULFURIC ACID

DANGER  **POISON**

HARMFUL OR FATAL IF SWALLOWED
CAUSES SEVERE BURNS

DANGER  **POISON**

HARMFUL IF SWALLOWED.

CORROSIVE: CAUSES SEVERE BURNS.

Contains sodium hydroxide. May cause severe eye and skin damage. Avoid contact with eyes and skin, mucous membranes and clothing. Wear rubber gloves and suitable protective equipment when handling. Do not allow solutions to remain in unattended fixtures. Do not mix with any other chemicals.

FIRST AID

IF ON SKIN: Immediately flood skin with water. Remove and launder contaminated clothing before re-use. Wash skin thoroughly with vinegar and water.

IF SWALLOWED: Contact physician or poison control center immediately. Do not induce vomiting. Give person large quantities of water, followed with citrus fruit juice.

IF IN EYES: Flush eyes and under eye lids with plenty of cool water for at least 15 minutes, or wash with a 5% boric acid solution. Obtain medical attention and continue flushing until medical attention arrives.

See M.S.D.S. for complete safety information.

KEEP OUT OF REACH OF CHILDREN

Handling & Storage: Keep container tightly closed when not in use. Do not store in unmarked containers. Do not mix with any other chemicals. Store containers in cool, dry place. Keep away from acids, strong oxidizing agents and disinfectants.
