

HYDRO POWER CONCRETE CLEANER

Product # 715

Biodegradable concrete stain remover

This liquid concrete cleaner combines the stain-lifting power of hydrogen peroxide with the degreasing ability of d-Limonene to lift away tough oil and grease stains, even if they have been set-in concrete for years. It is specially formulated with a stable form of hydrogen peroxide at a high pH level, so it remains in an active state for a longer period of time than other "oxygen-based" cleaners. It can also be used to prepare concrete surfaces for etching, sealing and decorative staining by removing the contaminants that inhibit these processes.

Use on all concrete surfaces:

- Garages
- Driveways
- Shops
- Parking areas
- Warehouses
- Automotive areas

Features and Benefits

- Restores original color to decorative concrete surfaces.
- Strong enough to clean heavy grease and oil stains.
- Can be used to prepare concrete surfaces for etching, sealing or decorative staining.

Properties

Appearance.....	Colorless liquid
Fragrance.....	Citrus
Concentrate.....	Yes
Specific gravity.....	1.02
Flash point.....	None to boiling
pH.....	9.0-10.0
Stability.....	1 year
VOC content.....	<1.0% by wt.
Solubility.....	Complete in water

Directions: Complete directions on product label

General cleaning: Dilute 5 ounces per gallon of water.

For severe oil stains or heavy grease: Use undiluted. Allow to penetrate 5 to 10 minutes, then rinse with clean water.

Active Ingredients

Water	
Hydrogen Peroxide	
Surfactant Blend	

CAS Number

7732-18-5
